Please Note:

All students should read this document carefully. High school students and/or minors (age 15 years to 18 years old) must read this document with their parents to assure themselves of success in the Driver Education Program. If students choose not to follow these guidelines, this training may cost more and will require a longer period of time to get a driver’s license.

What the State of Utah Requires:

• 18 hours of classroom time
• 6 hours of behind-the-wheel driving time
• 6 hours of in-the-car observation time be marked present, students must be in class 60 minutes per scheduled hour. Every week students are expected to verify their attendance by checking with their instructors. Instructors may only change attendance rolls within the current school week. If you have any questions regarding your attendance rolls, see your instructor, advisor, or counselor.

Students must be at least 15 years of age at the time they enter the class. If student already has a learner permit, he or she will need to provide a copy.

What the College Requires:

Students must agree in writing to obey all school rules and regulations. View Student Handbook and policies at http://www.owatc.edu/current-students/policies-student-handbook/

Students with disabilities resulting in limitations which require accommodations in the classroom or any other student/OWATC function should notify the College Diversity Coordinator or a College counselor immediately. Students will need to show proof of disability to make application for accommodation.

Classroom time will be scheduled Monday through Friday evenings from 5 p.m. to 7 p.m. Driving and observation time will generally be scheduled Monday through Saturday, and will be arranged by appointment with the instructor. It is important that a ride be at the school to pick up the student at the scheduled completion time for that session. It may be late in the evening, and the buildings will be locked. It would not be wise to have the student waiting outside for a ride.

If the student is not able to attend a driving or observation session, the student must contact the road driving instructor at least 24 hours ahead of the scheduled time. Any missed hours MUST be made up, at the student’s expense. The course must be completed within 90 days to avoid forfeiture of tuition.

Before Starting the Class:

If possible, students should contact the State Driver License Division and get a learner permit. To secure a learner permit
• the student must have a certified birth certificate OR
• a passport OR
• a Utah State ID card and an original social security card
• Two forms with present address.

The State Driver License Division requires students to take the written and driving examinations separately. Students who pass the written examination will be issued a learner permit. Following the completion of the required practice time, students who are at least 16 years of age and have had their learner permit for 6 months will have to make an appointment to take the driving examination. Students 18 and over are not required to have their learner permit for 6 months before making an appointment to take the driving examination.
